راه های ورود به Clinical Key
جهت ورود به clinical key یا مستقیماً"آدرس را تایپ می نمایید یا از طریق سایت دانشگاه و لینک کتابخانه دیجیتال وارد می شوید

➤ <https://www.ClinicalKey.com>

The screenshot shows the homepage of the Kermanshah University of Medical Sciences. The header includes navigation links for 'English', 'تماس با ما', 'شبکه ها', 'بیمارستانها', 'کتابخانه مرکزی', 'پژوهشکده ها و مراکز تحقیقاتی', 'دانشکده ها', 'معاونتها', 'تهد رهبری', 'حوزه ریاست', and 'درباره ما'. The main banner features the university's logo and the text 'دانشگاه علوم پزشکی کرمانشاه برگزار می کند' (Kermanshah University of Medical Sciences is organizing). Below this, there are two main sections: 'مهلته ارسال پیشنهادات تا ۲۰ بهمن ماه سال جاری' (Proposal submission deadline until 20th of Bahman this year) and 'محورهای اصلی جشنواره' (Main axes of the festival). The festival section lists several goals: 'ایجاد نوآوری دارنای بهره وری و افزایش رضایت مندی گیرندگان خدمت' (Creation of innovative drugs with efficiency and increase in service recipient satisfaction), 'افزایش کارآیی و اثر بخشی در مدیریت منابع (انسانی، فیزیکی و مالی)' (Increase in efficiency and effectiveness in resource management), and 'بکار گیری شیوه های نوین صرفه جویی در هزینه ها و درآمدهایی با تاکید بر معادله، اقتصاد مقاومتی' (Use of new cost-saving methods and revenues with emphasis on the equation of economic resilience). The sidebar contains icons for 'میز خدمت' (Service desk), 'آپهن های مناقصه و مزایده' (Tenders and auctions), 'تاریخ شفاهی دانشگاه' (University oral history), 'مراجعه عمومی' (Public access), 'کارکنان' (Staff), and 'دانشجویان' (Students).

Help & Feedback

▶ پایگاه Clinical Key ، مجموعه ای از محصولات انتشارات **Elsevier** می باشد.

▶ یک موتور جستجوی بالینی و یک پایگاه اطلاعاتی قدرتمند که جامعیت ، مورد اطمینان بودن و سرعت در بازیابی اطلاعات و پاسخگویی از مزیت‌های آن محسوب می شود.

▶ مجموعه ای است از مجلات ، کتاب ، راهنماها ، اطلاعات دارویی ، تصاویر ، ویدیوهای پزشکی و جراحی و شواهد بالینی مورد نیاز پزشکان ، پیرا پزشکان ، دانشجویان و بیماران

- این مجموعه حاوی :
- بیش از ۵۰۰ عنوان مجله پزشکی و جراحی از انتشارات *Elsevier*
- بیش از ۱۱۰۰ عنوان کتب مرجع پزشکی و جراحی
- مجموع کامل ۵۷ عنوان مجله از مجلات *Clinics of north America*
- آموزش بیش از ۳۵۰ تکنیک جراحی و ۴۵۰ عنوان شرح عمل جراحی
- مقالات بالینی و شرح بیماریهای مبتنی بر شواهد بیش از ۷۵۰ بیماری
- دسترسی به بیش از ۱۵۰۰۰ راهنمای آموزش بیمار
- حدود ۱۳۰۰۰ ویدیو پزشکی
- حدود ۵۰۰۰۰۰۰ تصویر پزشکی
- بیش از ۴۰۰۰ راهنمای عملی بالینی
- اطلاعات بیش از ۲۹۰۰ دارو که توسط شرکت *Gold standard* فراهم شده و به روزرسانی می شود.
- ۲۰ میلیون خلاصه مقاله مدلاین که به صورت روزانه از کتابخانه ملی پزشکی به این مجموعه اضافه می گردد.

برای استفاده بهتر از امکانات سایت مانند ذخیره نتایج جستجو و بازیابی آنها در مراجعات بعدی، و فعال سازی Remote Access ثبت نام (Register) کنید . پس از انجام ثبت نام ، از گزینه Login برای وارد شدن به سایت استفاده نمایید. جهت ثبت نام حتما از ایمیل آکادمیک استفاده نمائید.

فعال سازی Remote access در clinicalkey

- ▶ ناشر الزویر این امکان را فراهم نموده است که با فعال سازی Remote access خارج از محیط دانشگاه و بدون نیاز به vpn دانشگاه بتوان به کلیه محتویات کلینکال دسترسی داشت .
- ▶ به این منظور پس از ثبت نام با استفاده از ایمیل اکادمیک بروی نام خود در سمت چپ صفحه کلیک نموده و گزینه Remote access را انتخاب نمایید

مطابق تصویر زیر گزینه remote access را انتخاب نموده

The screenshot displays the ClinicalKey website interface. At the top left, the ClinicalKey logo is visible. The main header area contains a search bar with the text "Search for conditions, procedures, drugs, and more". Below the search bar, there are sections for "Browse" (Books, Journals, Clinical Overviews, Drug Monographs) and "Tools" (Clinical Calculators). On the right side, a user profile menu is open, showing the user's name "farideh takalloo" and various options: Settings, CME/MOC, Change Language, Saved Content, Presentations, Change Organization, Remote Access, and Log Out. An orange arrow points from the "Tools" section to the "Remote Access" option in the user menu.

صفحه زیر ظاهر شده که ایمیل آکادمیک را می پرسد پس از تایپ ایمیل آکادمیک کلید continue را بزنید

The screenshot displays the ClinicalKey website interface. At the top, there is a navigation bar with the ClinicalKey logo, a search bar, and links for 'Search', 'Browse', and 'Tools'. Below the navigation bar, there is a section titled 'Apply for remote access'. This section contains instructions for users to apply for remote access, including a note that it is not compatible with personal email accounts like Yahoo or Gmail. A form is provided for entering an institutional email address, with 'takaloo@kums.ac.ir' entered in the field. A blue 'Continue >' button is located below the form, and an orange arrow points to it from the left. At the bottom of the page, there is a footer with the Elsevier logo, contact information, and copyright details.

پیغام زیر ظاهر شده مبنی بر ورود به ایمیل آکادمیک و فعال سازی Remote access

The screenshot displays the Elsevier ClinicalKey website interface. At the top, the 'ClinicalKey' logo is visible on the left, and navigation links for 'Search', 'Browse', and 'Tools' are in the center. On the right, there is a user profile section for 'Fariyeh Takalo' with a search icon and a menu icon. Below the navigation bar, there is a search bar with the placeholder text 'Search for conditions, procedures, drugs, and more'. To the left of the search bar is a dropdown menu labeled 'All Types'. To the right are links for 'Saved Searches' and 'Search History'. The main content area features a heading 'Remote access activation' followed by a message: 'A confirmation email has been sent to takaloo@kums.ac.ir. Please click on the link in the email within 60 minutes to activate your remote access.' Below this message is a horizontal line with social media sharing icons for YouTube, Apple, Facebook, LinkedIn, and Twitter. At the bottom of the page, the 'ELSEVIER' logo is on the left, and a footer contains links for 'Contact Us', 'Resource Center', 'Terms & Conditions', 'Privacy Policy', 'Registered User Agreement', and 'Help'. Below these links, it states 'Copyright © 2020 Elsevier, Inc. All rights reserved.' and 'Cookies are used by this site. To decline or learn more, visit our [Cookies page](#)'. The 'RELX Group' logo is positioned in the bottom right corner.

دسترسی به فولتکست

Kent B. Crossley and Phillip K. Peterson

Mandell, Douglas, and Bennett's Principles and Practice of Infectious Diseases, 315, 3459-3465.e3

Keywords

bacteremia, decubitus, elderly, enterohemorrhagic Escherichia coli, herpes zoster, influenza, pneumonia, tuberculosis, urinary tract infection, West Nile virus

Short View Summary

GENERAL CONSIDERATIONS

- People living past 65 years of age are rapidly increasing in number.
- Individuals older than age 65 years have a higher incidence of most infections than do younger people.
- For nearly all infections, clinical manifestations are more subtle in the elderly.

URINARY TRACT INFECTION

- Asymptomatic bacteriuria should not be treated.
- Symptomatic infection is often caused by organisms other than Escherichia coli.
- Extended-duration therapy (i.e., >7 days) of symptomatic infection is not needed in either men or women.

نحوه جستجوی مقاله در سایت کلینیکال کی

با وارد کردن کلمه geriatric در کادر جستجو و انتخاب Journals ، مقالاتی با موضوع geriatric نمایش داده خواهد شد. فولتکست مقالات با کلیک بر روی آیکن Pdf قابل دانلود است.

برای اخذ کردن مقاله می توان از Filter موجود در بالای مقالات بازیابی شده استفاده کرد:

۱-نوع مقاله را در قسمت Source type مشخص می کنیم:

* مقالات دارای فولتکست (Full text article):این مقالات را می توان در سایت مطالعه کرد یا متن کامل آنرا با کلیک بر روی Pdf دریافت و ذخیره و پرینت کرد.

* مقالات مدلاین (Medline) : این مقالات بصورت چکیده در سایت هستند و برای دریافت متن کامل مقاله ، شما را آخر چکیده مقاله ، در قسمت **NLM citation ID** به آدرس آن در سایت پابمد ارجاع می دهند.

۲-نوع مطالعه را در قسمت Study type مشخص می کنیم:

* systematic review

* meta analysis

* randomized control trials

* narrative review

۳- مقاله را می توان از نظر موضوعی اخص تر کرد. برای این منظور از Specialties استفاده می کنیم. با باز کردن لینک کشویی مزبور ، موضوعات اخص تر را می توان دید و از آنها برای جستجوی بهتر استفاده کرد.

۴- و در آخر ، مقالات بازیابی شده را در حیطه زمانی مشخص می توان جستجو کرد.

Rare variants in CFI, C3 and C9 are associated with high risk of advanced age-related macular degeneration.

Nature genetics.

Seddon, Johanna M; Yu, Yi... Show all. Published November 1, 2013.

Help & Feedback

سمت راست صفحه ، اطلاعات مجله را می توان دید و سمت چپ تورق سریعتر در مقاله را ممکن می کند.

The screenshot shows the ClinicalKey website interface. The main article title is "Regulatory development of geriatric medicines: To GIP or not to GIP?". The page includes a sidebar with navigation options, a main content area with a graphical abstract and highlights, and a right sidebar with journal information and utility icons. Several orange boxes with Persian text are overlaid on the page, pointing to specific elements:

- پرینت** (Print) - points to the print icon.
- ایمیل کردن** (Email) - points to the email icon.
- ذخیره** (Save) - points to the bookmark icon.
- فولتکست مقاله** (Full text article) - points to the article title.
- اطلاعات مجله** (Journal information) - points to the "Ageing Research Reviews" section.

The graphical abstract diagram shows the flow from Pharmaceutical Industry to Regulatory authorities to Healthcare Providers, who then serve Pediatric Patients, Adults, and Geriatric Patients. It also shows the flow from Pediatric Patients to Pediatric Investigation Plan (PIP), from Adults to Current clinical trials and Current drugs, and from Geriatric Patients to Geriatric Investigation Plan (GIP).

The highlights section contains the following text:

- There is lack of knowledge on the benefit/risk ratio of medicines in the elderly.

اگر خواهان مقالاتی باشیم که فقط چکیده دارند می توانیم در کادر اصلی جستجو ، از منوی کشویی سمت چپ گزینه مدلاین را انتخاب کنیم و کلید واژه مورد نظر را در قسمت جستجو تایپ کنیم.....مقالاتی که بازیابی می شوند دارای چکیده و فاقد فولتکست خواهند بود.

The screenshot shows the ClinicalKey website interface. At the top, there is a navigation bar with 'English', 'CME', 'Login', and 'Register' options. The main header features the 'ClinicalKey' logo and the tagline 'Lead with answers.'. Below the header, a search bar contains the text 'geriatric'. A dropdown menu is open, displaying search results organized into three columns: 'Suggestions', 'Books and Journals', and 'Authors'. The 'Suggestions' column lists various topics like 'geriatric assessment', 'Geriatric Depression', and 'Health Services for the Elderly'. The 'Books and Journals' column lists titles such as 'Clinics in Geriatric Medicine' and 'European Geriatric Medicine'. The 'Authors' column lists organizations like 'Geriatrics' and 'Geriatric Oncology Consortium'. An orange callout box with a curved arrow points to the search bar, containing the Persian text: 'با انتخاب گزینه مدلاین ، تنها مدارک دارای چکیده بازیابی خواهند شد.' (By selecting the Medline option, only articles with abstracts will be retrieved.) The footer includes the Elsevier logo, contact information, and copyright details for 2016. The system tray at the bottom shows the date and time as 3/8/2016, 1:40 PM.

همانطور که قبلا گفته شد برای دریافت فولتکست بر روی PMID مقاله کلیک می کنیم تا به سایت پابمد متصل شده و لینک دسترسی را دریافت کنیم

The screenshot shows a web browser window displaying a ClinicalKey article. The browser's address bar shows the URL: <https://www.clinicalkey.com/#/content/medline/2-c2.0-2403695>. The ClinicalKey logo is visible in the top left, and the search term 'geriatric' is entered in the search bar. The article title is 'Abstract'. The main text of the abstract discusses genetic associations with AMD. Below the abstract, the 'Citation' section provides the full citation details. An orange arrow points from the 'PMID Citation ID' field to a box containing the text 'مقاله PMID'.

with rare missense alleles in genes other than CFI. Genotyping in 5,115 independent samples confirmed associations with AMD of an allele in C3 encoding p.Lys155Gln (replication $P = 3.5 \times 10^{-5}$, OR = 2.8; joint $P = 5.2 \times 10^{-9}$, OR = 3.8) and an allele in C9 encoding p.Pro167Ser (replication $P = 2.4 \times 10^{-5}$, OR = 2.2; joint $P = 6.5 \times 10^{-7}$, OR = 2.2). Finally, we show that the allele of C3 encoding Gln155 results in resistance to proteolytic inactivation by CFH and CFI. These results implicate loss of C3 protein regulation and excessive alternative complement activation in AMD pathogenesis, thus informing both the direction of effect and mechanistic underpinnings of this disorder.

Acetaminophen

⊞ Acephe | Aceta | Actamin | Anacin Aspirin Free | Apra ...

Drug Information Provided By Gold Standard

Description: Acetaminophen (APAP, paracetamol) is a para-aminophenol analgesic and the active metabolite of phenacetin. Due to the toxic effects of phenacetin at therapeutic doses and the availability of acetaminophen, phenacetin is no longer used. Acetaminophen possesses analgesic and antipyretic activity similar to aspirin; however, acetaminophen has no peripheral antiinflammatory activity or effects on platelet function. Acetaminophen was first used in clinical medicine in the 1890's. It is effective in the relief of both acute and chronic pain and may be preferred over NSAIDs due to fewer hematologic, GI, and renal effects. Acetaminophen is the preferred analgesic/antipyretic for patients in whom aspirin is contraindicated and in those with underlying renal disease for episodic, though not chronic, use.²³⁶⁷⁷ In addition, acetaminophen has been recommended by the American Lung Association as the first line treatment for aches and pains associated with the flu, by the American Geriatrics Society for both minor and persistent pain in elderly patients³⁵⁶¹⁴, and by the American College of Rheumatology as first-line therapy for osteoarthritis of the hip or knee³⁵⁶⁷⁶. The drug has a history of safe and effective use; however, unintentional or intentional misuse of acetaminophen is the number one cause of acute hepatic failure in the U.S.³²²⁰² Acetaminophen was first approved by the FDA in 1950. Intravenous acetaminophen (Ofirmev) was approved by the FDA in November 2010 for the treatment of pain and fever in adults, adolescents, and children over the age of 2 years.⁴²²⁸⁹

Mechanism of Action: The exact mechanism of action is unknown, but acetaminophen is thought to mediate its actions centrally through activation of the descending serotonergic pathways. Acetaminophen is believed to increase the pain threshold by inhibiting prostaglandin (PG) synthesis through the cyclooxygenase (COX) pathway, similar to nonsteroidal anti-inflammatory drugs (NSAIDs). Though

Migraine Headache
Disease Overview > View Full Topic
Ferri's Clinical Advisor 2016 - Ferri, Fred F., M.D., F.A.C.P.

Definition

Migraine headaches are recurrent headaches that are either preceded by a focal neurologic symptom (migraine with aura), occur independently without preceding focal neurologic symptoms (migraine without aura), or have atypical presentations (migraine variants). The migraine aura typically is characterized by visual or sensory symptoms that develop over 5 to 60 min. If aura includes motor weakness, the migraine is referred to as hemiplegic. In migraine with and without aura, the headache is typically unilateral, pulsatile, and associated with nausea and vomiting, photophobia, and phonophobia. Migraines that occur ≥ 15 days every month for ≥ 3 months are known as chronic; otherwise, they are referred to as episodic.

Asthma in Children

Disease Overview [View Full Topic](#)

Conn's Current Therapy 2016 · Bope, Edward T., MD; Kellerman, Rick...

Epidemiology

Asthma prevalence in the United States has been on the rise since the 1990s. It is currently estimated that 9.6% of children younger than 18 years (7.1 million children) carry the diagnosis of asthma. Male sex, African American or Puerto Rican ethnicity, and lower socioeconomic status are associated with an increased risk of developing asthma. Prevalence estimates for these groups are as high as 11% to 16%.

Asthma has a significant impact on both school attendance and health care expenditures. According to the National Health Statistic Report in 2007, children made 640,000 emergency department visits and were hospitalized 157,000 times as a result of asthma. In 2008 it was estimated that there were 10.5 million missed school days, and about 5% of children reported long-term limitations on their usual activities due to asthma symptoms.

GUIDELINE Parkinson's disease in over 20s: diagnosis and management (CG35)

National Institute for Health and Care Excellence (NICE)

Introduction

Parkinson's disease (PD) is a progressive neurodegenerative condition resulting from the death of the dopamine-containing cells of the substantia nigra. There is no consistently reliable test that can distinguish PD from other conditions that have similar clinical presentations. The diagnosis is primarily clinical, based on a history and examination.

People with PD classically present with the symptoms and signs associated with parkinsonism, namely bradykinesia, rigidity and rest tremor.

Parkinsonism can also be caused by drugs, and conditions that are less common than PD. These include multiple cerebral infarction and degenerative conditions such as progressive supra-nuclear palsy (PSP) and multiple system atrophy (MSA).

Although PD is predominantly a movement disorder, other impairments frequently develop including psychiatric problems such as depression and dementia. Autonomic disturbances and pain (which is rarely a presenting feature of PD) may later ensue, and the condition progresses to cause significant disability and handicap with impaired quality of life for the affected person. Family and carers may also be affected indirectly.

Health and resource implications

PD is a common, chronic, progressive neurological condition, estimated to affect 100–180 people per

Published March 2, 2016. Conditions: Pancreatic Cancer. Interventions: Drug: Bevacizumab; Drug: Erlotinib; Drug: Capecitabine; Radiation: Radiation Therapy.

On the right side of the page, there is a section titled "Pancreatic Cancer" with a "Disease Overview" link and a "View Full Topic" link. Below this, there are sections for "Definition" and "Epidemiology".

Definition
Pancreatic cancer usually refers to ductal adenocarcinomas of the pancreas, because more than 90% of pancreatic tumors arise from the ductal epithelium. Other major tumors of the pancreas include endocrine malignancies (Chapter 195), carcinoid tumors (Chapter 232), lymphomas (Chapter 185), and a variety of rare sarcomas.

Epidemiology
Pancreatic ductal adenocarcinoma (PDAC) has one of the highest incidence-to-mortality ratios of any disease. Although it represents the tenth leading cause of cancer in the United States, it is the fourth leading cause of cancer-related deaths, ¹ because the vast majority of patients will die from their disease. Annually, approximately 40,000 individuals will die in the United States from PDAC or its complications. The

CLINICAL TRIAL

Safety Study of Nivolumab With Nab-Paclitaxel Plus or Minus Gemcitabine in Pancreatic Cancer, Nab-Paclitaxel / Carboplatin in Stage IIIB/IV Non-Small Cell Lung Cancer or Nab-Paclitaxel in Recurrent Metastatic Breast Cancer

First received on December 3, 2014. Last updated on March 30, 2016.

Purpose

The purpose of this study is to assess safety of nab-paclitaxel based chemotherapy regimens administered prior to and/or in combination with nivolumab in Pancreatic Cancer, Non Small Cell Lung Cancer (NSCLC) and Metastatic Breast Cancer (mBC).

Status	Recruiting
Condition	Breast Neoplasms
Phase	Phase 1
Study Type	Interventional
Study Design	Allocation: Randomized, Endpoint Classification: Safety Study, Intervention Model: Parallel Assignment, Masking: Open Label, Primary Purpose: Treatment
Official Title	A Phase 1, Open-label, Multicenter, Safety Study of Nivolumab (Bms-936558) in Combination With Nab-paclitaxel Plus or Minus Gemcitabine in Pancreatic Cancer, Nab-paclitaxel/Carboplatin in Stage IIIB/IV Non-small Cell Lung Cancer or Nab-paclitaxel in
